PROJECTS

Shaker

Front-end Javascript app

<https://gmg300.github.io/Shaker/>

- Shaker is a single-page front-end app built with Javascript. It allows users to query the CocktailDB API, search for nearby bars using Google Maps and save favorite drinks in localStorage.

The Coding Library

CRUD app using MySQL, Express, Handlebars & Node

<https://coding-resources-312.herokuapp.com>

- The Coding Library is a CMS allowing users to create authenticated users, learning resources and tags and save resources to their user profiles.
